

Getting certified will differentiate yourself and your firm from others by recognizing your achievements. Certification establishes professional credentials, earns industry recognition, and improves communication among project team members. CSI's CDT certificate and advanced certifications --- CCS, CCCA, CCPR --- are recognized throughout the industry as evidence of a proven level of education, knowledge, and experience in construction documents.

These credentials prove your professional commitment, credibility, and reliability to employers, colleagues, and clients. These exams are for anyone who uses or wants to better understand construction documents.

The Sacramento Chapter will be once again hosting the CDT Exam Prep Class to get you on the road to improving your credibility and worth to your current employer or future employer. Email Thomas Berger at berger@dtcrs.com for more information and reserve your space on our upcoming classes.
